Re: Chinese Patent Application for Invention No. **201680011933.8**
In the name of **FTLAB CO., LTD.**

Dear Sir/Madam

We are pleased to forward you the Patent Certificate of the above-identified patent application and its English translation. The issuance of the patent was published in the official Patent Gazette on October 1, 2019 and the patent has been in force from this date. The patent will be valid until the expiration of 20 years from the application date.

The patent pamphlet can be obtained from the official website of the CPO. If you need us to download and forward the patent pamphlet, please let us know.

According to a recent notice by the Chinese Patent Office (CPO), a new version of the Patent Certificate will be issued for granted patents beginning as of December 4, 2018, which additionally includes the applicant(s) and inventor(s) on the filing date. The new Patent Certificate includes one double-side printed page and will no longer include a wrapper.

Please acknowledge receipt of the said documents at your earliest convenience.

Extension of Chinese Patent in Macao

To protect the subject patent in Macao, the patentee should file a Request of Extension in Macao within three months from the publication date of the Chinese patent, i.e. the inextensible deadline is January 1, 2020 . **If the patentee decides to extend the Chinese patent to Macao, please send us your instructions at least one month before the deadline, as we need time to obtain the certified documents from CPO and mail them to our Macao associate.**

Other Issues

1. Annual fees must be paid to keep the patent in force. Each annual fee (annuity) is due on the anniversary of the patent's filing date. We will send reminders about each annuity before the payment due date for the patent if we are responsible for the annuity. Please note that the next annuity will be due on July 21, 2020.

2. An assignment of the patent right, if any, should be recorded with CPO so that the transfer of the patent right may take effect.

3. Any license, if any, might be recorded within three months from the license contract date whenever the patent is licensed in China.

4. Please inform us promptly of any change in your contact details, so that we may contact you in time for any official correspondence received from the CPO, i.e. the invalidation request forwarded from the Patent Reexamination Board of the CPO.

5. Any change in the name or address of the patentee, if any, should be recorded in the CPO so that the CPO may update the data of the patent.

We hope that we can continue to assist in protecting the patentee's rights in China. More specifically, if the patentee has any post-grant issues in the future, such as patent invalidation, litigation and licensing, we and our sister law firm, Sinda Law Offices, will be happy to assist.

Yours faithfully

Pingping Yang
